

Datasheet

GALEOW - Wiegand Keypad

Product Description

The GALEOW is a stylish and innovative keypad for online access control, combining good looks with a high level of ruggedness and vandal resistance.

The GALEOW is suited for both external and internal use. Clever innovation has resulted in a keypad that can cope with the harshest of environments. With the benefit of soft blue backlighting and a modern but uncompromising design, GALEOW is a keypad for all your coded entry solutions. This keypad is supplied for connection to online access control systems via a door controller, such as our own ATRIUM A22K.

The GALEOW is available in both silver and matte black.
